

Laia t-Pod Quad 22 Plus

Laia t-Pod Quad 22 is an audio system to connect to the computer via USB. Digital active speakers play conference audio in real time and with 4 wireless pickup microphones to provide you with more comprehensive pickup range and sound quality.

It also supports external microphones for reinforcement, making your meeting simpler, faster and more efficient.

Using the latest sound network voice processing technology, 360° omnidirectional sound pickup and 384ms echo cancellation among many of its features, users will have a high-quality meeting experience.
